When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

TELEGRAMS

(To the "Prensa.")

London, 30th.—At a balloon ascent at the Crystal Palace the balloon burst when 1,000 feet in the air, and came down with awful rapidity. There were four persons in the car; Captain Dale and wife, and two others. The Captain was killed and the other three were badly injured.

Stanley, the explorer, was shamed cruelly while addressing the electors as a Liberal Unionist candidate, and interrupted by cheers for Gladstone.

At Cork Mr. William O'Brien declared that Gladstone's Home Rule Bill is better than that which Parnell approved in 1886.

At a meeting of the Chamber of Commerce a resolution in favour of a five per cent import duty on Colonial products was passed.

Halsell's drug store and eight adjoining buildings have been destroyed by fire. Loss, £100,000.

The Queen gave a grand banquet at Windsor in honour of the betrothal of the Princess Marie of Edinburgh.

The Municipality of Munich has thrown out the proposal to give Bismarck the freedom of the city.

Dublin, 30th.—At Tuam there was a riot when Dr. Tanner addressed the electors. The police charged with swords and wounded several people.

The Archbishop, Dr. Walsh, has sent a circular to the Catholic clergy, exhorting them to make every effort to preserve the tranquility of the country.

Calcutta, 30th.—The Indian Government has requested the Ameer of Afghanistan not to attack Ibs Khan, by whom his troops were recently beaten.

Berlin, 30th.—Fine export returns show an increase of 600,000 tons in the first five months as compared with the same months last year.

The Government is thinking of prosecuting Bismarck on revealing the bad result of the Emperor's last interview with the Czar at Narva. Bismarck says that the Emperor and Caprivi have snapped all the bonds that united Germany and Russia. The *Tagblatt* says that Bismarck has at last forced the Government to pick up the glove he has thrown down so often during the past two years. He has held Caprivi up to the ridicule of foreign countries. The *Vossische Zeitung* says it hopes Government will not prosecute the creator of German unity.

The boiler of the Neider Lischen factory burst. The owner and his nephew were killed and five workmen injured.

New York, 30th.—Bar silver in London 40 1/16. Stock Exchange prices unsteady, owing to elections.

Moscow, 30th.—All the pawnbrokers' shops owned by Jews will be forcibly closed next month, and they will be allowed ten months to wind up their business.

Paris, 30th.—While searching the residence of the navy chaplain who sold plans to Germany, further discoveries have been made of plans of one of the new French war vessels.

Government has asked the Chambers not to alter the import duties on petroleum.

(To the "Nacion.")

Berlin, 30th.—Chancellor Caprivi is the author of the article which appeared in the *Norddeutsche Allgemeine Zeitung* attacking Bismarck in his intemperate attitude against the Emperor. The Progressists, Catholics and Socialists support Caprivi while the Conservatives and Nationa. Liberals are in favor of Bismarck. The reply of the ex-chancellor is looked forward to with great anxiety. If Bismarck persist in his attitude, it is feared the Emperor will take some violent measure, which may prove dangerous in view of Bismarck's popularity and the ill-feeling against Government.

Paris 20th.—It is stated that Germany will consent to a reduction in the Italian army, whose minor offensive capacity does not defeat the ends of the Triple Alliance, which are pacific.

It is added that Italy is anxious for this reduction.

It is stated that Mr. Gladstone, should be triumph in the elections, will oppose the annihilation of France in case of war.

THE NEW NATIONAL BANK.

The indifference or inability of the public to subscribe the required capital of 10,000,000 currency dollars for this bank has caused for the moment a reaction in the progress of national reoperation. We have been for the past four months steadily improving, with every symptom of convalescence, and if the required capital had been subscribed public confidence would have grown apace. The rise in the gold premium indicates apprehension of fresh issues of shinplasters, which would be a grave calamity. Still more disastrous is the revival of the system of State-banks, which, as President Pellegrini says, has been the main cause of the terrible confusion into which the finance, credit and commerce of the country have been thrown in the last 4 years. The decrees which we publish at foot hold out a hope that next year the public may be in a better position to take up the shares of this bank, and we cordially wish that such hope may be realized. The public, meantime, will look with confidence to the National Government not to allow the capital or issue to be increased beyond the amount of the first series, namely $10,000,000.

If the Government keep faith with the public on this point we shall soon get over the disappointment that has befallen us, and turn all our energies to hasten the coming of better times.

The following is the full text of the decree annulling the public subscription to the shares of this Bank:—

Buenos Ayres, June 30, 1892.

Whereas the total amount of the first series of ten millions of capital for the Bank of the Argentine Nation, in spite of the extension of the term allowed has not been subscribed, and, it being urgently necessary to define the position of the subscribers who have handed to the Caja de Conversion, in bonds or money, the amount of their subscriptions, and considering—(1) That the law creating the Bank does not provide for the non-subscription of the total amount of the first series of shares; (2) That the right accorded to the subscribers to be represented on the Board and to be preferred in subscribing for the subsequent series presupposes the total subscription of the first series; (3) That it is not possible for Congress to immediately reform the law; as regards the value of the different series and the rights of subscribers to the minor series, it would be prejudicial to the credit and stability of the Bank to call for a reform of the law six months after the opening of the Bank; (4) That next year, by the light of experience, it will be easier and safer to perfect the law, while better consulting the great interests connected with the Bank; (5) That the subscription to the shares will then be easier, since by that time many of the causes which to-day deter people from subscribing will have disappeared, while the importance and future of the Bank will be better understood; (6) That, in such a case, the most prudent thing to do is to replace things on the same footing as they were before the subscription was opened, annulling the subscription, while taking into account that the subscribers deserve some compensation for the delay, and the losses thereby caused.

The President of the Republic.

DECREES:

Art. 1.—The subscriptions to the first series of shares of the Banco de la Nacion Argentina are hereby annulled.

Art. 2.—The Caja de Conversion shall return to subscribers the securities or values delivered by them in payment of shares subscribed, and take back the receipts given out.

Art. 3.—Those subscribers who paid in bonds of the Internal Loan shall have the right to demand the withdrawal of same and to receive such at the rate of 75 %, as set forth in the Charter of the Bank.

Art. 4.—In the case set forth in the preceding article, the Caja de Conversion shall withdraw the bonds for account of the Banco de la Nacion Argentina, handing over to the subscriber a cheque, for 75 % of the nominal value of the Bonds, on the Bank.

Art. 5.—The Caja de Conversion shall make this payment in the order in which the shares were subscribed, and sign cheques at sight to the amount of 4 millions of bonds, the rest being payable in the coming month of August, in accordance with the monthly sums destined by the Bank for the withdrawal of the bonds. The Caja de Conversion shall deliver the bonds withdrawn to the Bank.

Art. 6.—The coupon of the 1st of July of the bonds belongs to the subscribers and shall be handed to them together with the cheque for the principal by the Caja de Conversion.

Art. 7.—Let this be made known etc.

PELLEGRINI.
Emilio Hansen.

Considering: (1) That, according to Art. 31 of the Charter of the Bank, the State is responsible for the sums deposited in the Bank and for the issue delivered to the Bank by the Caja de Conversion, so long as the Board of the Bank be not modified in the form set forth in Articles 25 and 26; (2) That, owing to the deficiency of the public subscription, for the fulfilment of Art. 25, whereby the Bank continues under the management of the Board appointed by Government, it is necessary to dictate the proper means to guarantee the responsibility for these deposits and as regards the issue to fix the purport of the prescription of Art. 31.

The President of the Republic

DECREES:

Art. 1—The Banco de la Nacion Argentina shall, so long as the Board appointed by Government continue to manage it, deposit in the Caja de Conversion, as reserve, a sum of issue equal to 75 per cent of its deposits, independently of the 25 per cent which, according to Art. 16, the Bank must keep in its own vaults.

Art. 2—Let this be made known etc.

Pellegrini.
Emilio Hansen.

At the sitting of the 27th the Board of the Bank decided to withdraw the bonds of the Internal Loan, in the following form: 4 millions in July, 4 millions in August, one million per month from September to December inclusive, and 2 millions per month from January 1893 until the total amount be redeemed. The Government, on being notified of this resolution, issued the following decree:—

B. Ayres, June 30th 1892.

Approved. The sums destined for the withdrawal of the bonds during July and August shall be sunk in the first place in redeeming the bonds given in payment of subscribed shares of the Banco de la Nacion Argentina.

Let this be made known etc.

Pellegrini.

OUR LONDON LETTER.

(From our own Correspondent.)

THE OAKS. WAR IN UGANDA.

June, 3rd.

This is the way to go to the Oaks; read the telegrams as they come in:

Epsom Downs, 10 o'clock.

The aspect of the Downs very much resembles that of a fair ground before the fair begins. There is litter everywhere; the grass is whitened with thousands of advertisement bills. The betting men have not yet put in an appearance, but their wooden stands are there in rows, and above them are floating in rows bright red flags varying in intensity of colour.

Half-past-eleven.

There is an enormous public already on the ground, but they are all pedestrians, and the carriages are still upon their way. Business is brisk at the booths and stands in the open air. A babel of sound fills the air, but above the low roar there are certain voices and sounds which can easily be distinguished. Upon the course are scores of crowds round loud-voiced fellows, who are selling the winning horses, duly printed upon paper slips, at the low price of sixpence.

Half-past-one.

Now the Grand Stand presents an animated appearance, for it is filled with ladies in pretty dresses and fascinating little hats and bonnets, whose parasols are kept in continuous motion by the breeze, for the wind is blowing strongly and there is certainly rain in the air. The prevailing colour is fawn trimmed with green, and very ladylike it is, with large hats and feathers to match. The next most general fancy appeared to be dove trimmed with embroidery, with large hats trimmed with the colour of the embroidery. Amongst the dresses worn there was not one to be seen which was loud in expression. One wore green gauze over pale salmon silk, and the bonnet was trimmed with dog roses. Plain materials looked handsome by the skill with which they were decorated. There was a blue serge dress worn with a white embroidered vest, the hat was of blue velvet, with guipure butterfly and aigrette. Another blue serge was worn with a fawn silk blouse, large hat and feathers to match. There was a pale shade of dove embossed silk, with green velvet trimmings, and black hat with pomegranate flowers and black lace. A mantle which was greatly admired was of fawn cloth embroidered in gold and silver, with deep black lace fringe, intermixed with spangles of gold. The sunshades are in fawn or red, or shot with pink and blue, or gold and brown. Amongst the arrivals during the early part of the day were Prince Henry of Battenberg, Prince Christian, the Duke of Cambridge, the Duke of Wellington, Mr. Hoare, Sir George Chetwynd, Mr. Palmer, of Nonsuch Park, Mr. Sassoon, Lord Marcus Beresford, Earl Cadogan, and a great number of other lovers and patrons of horse racing. Shortly before the first race was run a few drops of fine rain fell, but there was no fall of any consequence, and the sky is full of brightness and warmth.

RACING NOTES.

The weather outlook could not have been more promising than it was this morning, when the sun shone with pleasant warmth, and, if the sky became somewhat overcast just before the first race, visitors escaped with a slight shower and the afternoon passed off enjoyably. There was, of course, a large attendance; but it was scarcely up to the average for the Oaks Day so far as the crowd on the Downs is concerned, albeit the stands were filled. A quiet start to the racing was made with the Walton Plate, in which the odds betted on the savage Sea Song were easily landed, after which he was bought in for 230 guineas. The two-year-olds that ran for the Acorn Stakes must be a moderate lot, as Affluence, whose only previous performance made her out bad, gained a clever victory and did the fielders a turn. Bog Myrtle upset calculations in the Glasgow Plate; and then came the Oaks. It was decided in good time this morning that La Fleche should run, and as soon as a ring was formed odds of 5 to 4 were betted on her; but at the finish 11 to 8 was betted. Of the others, most money went on Palisandre. She never gave her backers the least ray of hope, however, and La Fleche, running again with great gameness, just got home after a desperate struggle with The Smew, who was also second to her in the One Thousand Guineas.

∴

Baron Hirsch's filly only just saved her bacon, by a short head. Another few yards and she would have been beaten, by Mr. James' The Smew. Both fillies are by the same sire St. Simon. Colonel North's Lady Hermit, whom many fancied, was a bad third. Baron de Hirsch, the victor in the oaks, and who so nearly gained the blue ribbon at the Derby with La Fleche is still confined to his room in Paris. He is reported to be convalescent. Lord Bradford, who won the Derby with Sir Hugo, has been trying for the coveted prize for many years. His horses have succeeded in getting a second place but have never before won the great Cockney contest, which is of tolerably ancient origin, but was really made and written into popularity not many years ago by "Bell's Life." The glorious weather we have had this season has revived the repute of Epsom races, which for the last five or six years have certainly been on the decline. The company who own and manage the course, relying upon the popularity of the races, take no trouble to cater for the comfort and convenience of the visitors. Kempton Park and other new courses in the neighbourhood of London are much superior to Epsom.

∴

One can only talk about races. How the weeks and months roll on! Here we are again in holiday time and looking up the A B C for sea side trains. The Houses of Parliament have both adjourned. Yesterday, I was writing about Mr. Gladstone's speech in Farrington Street. To-day, I observe he has already read the lessons in Hawarden Church. In three weeks more he will commence another Midlothian Campaign, and after that the elections. There is no doubt about it, we do live in these times. Only the other day as it seems, some of us who fancied ourselves prophets were shaking our heads gravely at the scramble for power amongst European nations at the sources of the Nile and in Central Africa, which had then barely been discovered and mapped. To-day, we hear that French catholics—black converts—are fighting with English protestants—niggers also—at Uganda. We are accused by French bishops and catholic missionaries of massacring the catholic converts, sacking and burning the French stations and bayonetting catholic women and their babies. English military men, Captain Lugard and Captain Williams, are accused of destroying catholic boats on the lake, and sweeping down hundreds of christian converts with Maxim guns. These reports are confirmed from German sources. Bishop Hirts, a missionary who appears to be in the Gallican Church, but apparently of German origin, forwards his complaints to Berlin. The misfortune is, that neither the British Government nor the chartered East Africa Company, nor the Church Missionary Society has received any news from Uganda subsequent to the date when these horrors are reported to have been transacted. Of course no one here believes a word of it. No English officer is likely to burn missions, bayonet babies and leave Catholic or any other denomination of converts destitute as reported. But if bad blood has arisen amongst the blacks, nominally Catholics and nominally Protestants but really and respectively partisans of different nigger chieftains; and if, as is very likely, the Catholics were the aggressors as they are enormously in the majority and are partisans of a chief the English have kicked out, then the foundation, such as it is, for the French Catholic missionary reports is possibly very real. Firstly neither Captain Lugard nor Captain Williams nor the handful of Protestant missionaries and traders that are in Uganda are in a position to exercise complete control over a large savage population excited by the intrigues of European traders, missionaries and politicians as well as Arab slave dealers. Secondly, if a fight did occur Captains Lugard and Williams cannot be blaimed if they ranged their Maxim guns on the side of their own people, supposing they were not the aggressors. All this we have to know. Why we are not yet in possession of the facts seems to arise from the East Africa company not utilising the German "postal facilities"—black-runners—and because like the jealous traders the English missionaries have a suspicion that their correspondence might be violated, and wait for the company's mails that go about once in nine months. Meanwhile M. Ribot has promised his fellow countrymen that the French Government will be ready to call the British Government to account should the circumstances require it; but he is content to hold his hand until the reports arrive from the British commissioners in Uganda. In addition to this affair, trouble is brewing in Madagascar. The Malagasies are not content with Lord Salisbury's convention with the French and threaten to raise the duties upon English goods. All this will be ripe about the time of our general election in July; and if Lord Salisbury is beaten he will thank his stars that, as he before left a mess in Egypt for Mr. Gladstone to unwillingly settle, he can now leave him another legacy in East Africa; not to speak of a seal business, a cod business and a land squabble in New Zealand in which the U. States Government is interested.

The *Star* gives the following chatty account of Lord Salisbury's reception at the Foreign Office on the evening of the Derby day:—

The second reception at the Foreign Office was strikingly like the first, only duller. Perhaps this was due to the fact that it was the Parliamentary night. Most elaborate preparations had been made, and the flowers were lovely, while great blocks of ice were set up in bowers of ferns in order to cool the thunder-laden air. Two bands played to encourage conversation—one on the grand landing, and the other in the big reception-room,

The guests of the evening were the Duke of Cambridge, Prince and Princess Edward of Saxe Weimar, and some Indian visitors, whose jewels were magnificent, but whose names did not transpire. Altogether a very one-horse affair. The Parliamentary element mustered strong: there was much laughter over the collapse of the afternoon. The Duke and Duchess of Roxburghe, the Duke and Duchess of Buccleugh, the Dowager Duchess of Marlborough, and the Duke and Duchess of Westminster gave a highly respectable flavor to matters in general. The Duchess of Buccleugh received congratulation from the 'elite' on the engagement ment of her niece, Lady Evelyn Fitzmaurice; Countess Marie Hatzfeldt declined to throw any light on a similar question. Mr. Henry Chaplin, Lord Alington, and Lord Faversham got into a corner to fight the Derby o'er again. Lady Cadogan flitted about with Lady Emily Cadogan at her heels. Lady Dudley, Lady Alington, and Lady Feo Sturt formed a trio of graces.

The lovely Countess of Yarborough and Lady Ulrica Duncombe represented the two ideal types of womanhood and girlhood. Mr. Henry Matthews skipped about with compliments. Sir Henry Wiggin stared at Sir Edward Hill. The Hon. Sidney Greville and the Hon. Schomberg M'Donnell ran about looking important. Lady Granby, Lady Esher, Baroness Henry de Worms, Lady Borthwick, Lady Wimborne, Lord Bridport, Lady Walter Gordon Lennox, Lady Arthur Hill, the Hon. Robert Spencer, Lady Fanny Marjoribanks, Sir Samuel Wilson, Lady Sarah Wilson, Lady Burton and others were among the guests who passed up the grand staircase in the course of the evening. The privileged ones who came to the private entrances got away easily enough; but the general herd had wait to and wait—just as they used to have to wait a year or so ago when trying to get away after a Drawing Room.

BARON HIRSCH'S COLONISTS

Buenos Ayres, June 28th.

Mr. Editor,

Will you allow us space to publish a translation of the Hebrew petition we have now sent to the benevolent Baron, begging that our beloved and esteemed father, Charles Edward Cullen, be appointed our general Director. By this means we hope it will surely reach to the ears of the Baron, as the first petition which we sent last February we fear has not done; his sorrounding have done their best that our lamentations be a voice in the wilderness.

Will you also please print the translation of a special prayer offered up for Mr. Cullen, when we heard he was ill, as it will show how he is esteemed by us. Our only hope is in him.

Should we succeed, justice and liberty will again be amongst us.

We say justice and liberty; these two words are unknown to us since we arrived on Argentine shore. Every new administration makes its own laws.

Everyone deprives us of the liberty which the Constitution allows every citizen, and leads us back to the darkest age, when the German Jew could not move a few miles from his residence without the necessary "Schutzbrief" (letter of protection) from the knight under whose protection he stood.

We are well informed that the desire of the Baron is to establish colonies, where we can return to the profession of our forefathers Abraham, Isaac and Jacob.

We had enough of persecution in Russia, but it is less than what we suffer in this country, unknown to the National and Provincial Governments. For more than a year we have had to live in tents. The Jewish medical men, who could speak to us in our native tongue, were dismissed, because they did not agree with military discipline, and strove to attend to our wants.

The long promised plots of land and houses are not yet given to the colonists (though you may read in the *Prensa* and *Nacion* that this has been done) and the same state of affairs will exist, perhaps, until the right man comes.

We are not allowed to move a few miles without a passport, and without this we cannot get a railway ticket: in a word slavery in a Republic.

To shew the condition of our colonies—250 of our colonists, in despair of justice being done them, return to-morrow by s.s. Berlin to Europe, and more than 200 will start on 5th July by s.s. Olnida; 150 went a week ago by the s.s. Baltimore to Europe, and many hundred more are making ready for returning. The Argentine is not to blame for this.

(Here follow Hebrew signatures.)

Ed. Note. We regret to say that the petition of 290 colonists of Moses-ville is too long for our columns. It is all in the same style and tenor as the above letter.

BUENOS AYRES CHRISTY MINSTRELS.

The second entertainment of this troupe was held on Tuesday night last in the Salon Operai Italiani before a large and appreciative audience, and every item was well executed.

The opening overture was spirited.

Mr. Avery was the first to secure an encore with "The Darkie's Wedding," which he sang with much spirit.

Mr. Esplen's rendering of "Peep Bo" was perfect and he was much applauded, while Mr. Percival scored a decided hit in his song "Oh! de lamb," which he gave in capital style.

Mr. Dibble, apparently the sole survivor of Branigan's lively Band, marched on behind a big drum which he pounded in such grand style that the Minstrels were forced to beat a dignified retreat, and the curtain closed on the first part amid great applause.

After an interval of ten minutes, the second part opened with a quartette of mandolines and guitars by Messrs. Mc Queen, Dibble, Brown and Rogers, who were enthusiastically encored. Mr. Syner's song and dance, "De ole plantation," was very good and he was heartily encored.

"Bruised and Cured," a comic boxing sketch, was exceedingly laughable and well performed. Mr Moger was quite unable to cope with his pugnacious employer, and only succeeded in obtaining a cure at the expense of one of his legs in his hurry to escape by the window from his persecutor. Mr. Wallis's performance was good.

Messrs. Dibble and Syner's banjo duet was much appreciated.

The concertina solo by Mr. Haines was exceedingly well rendered.

Mr. Slater's song and dance "Hello, Baby!" was first rate and he received a not-to-be-denied encore.

The sketch "Black Justice" kept the audience in laughter for a quarter of an hour. Mr. Weir as Deputy Justice being exceedingly droll and funny, while Mr. Dibble proved a model "blue-bottle."

The step dance by Mr. Slater was perhaps the gem of the evening, and he was thrice recalled.

The programme closed with a grand promenade concert by the Monstre band, under the direction of Signor Galvanico Batterio, whose leadership perhaps accounts for the shock the audience received on hearing the rendering of the "Dead March in Saul."

Messrs. Avery and Percival as corner-men and Mr. Weir as interlocutor were evidently the right men in the right place, and Mr. McQueen as leader of the orchestra.

The performance was certainly a great improvement on the former one and quite above the average amateur level, and we congratulate the Minstrels on having achieved such a great success.

Dilettanti.

THE LATE CAPTAIN GOLDIE.

Captain Alexander Goldie was one of the most popular captains that ever navigated these rivers. He had been ill some few days with influenza, and his death took place yesterday.

Captain Goldie who served his apprenticeship on the Clyde, came to the River Plate in 1861 as 2nd engineer of the first Villa del Salto of the Nueva Compañia Salteña of Salto. Shortly after his arrival he was made chief engineer of the same vessel and was afterwards chief engineer of several passenger steamers running on the river, including the old Tevere.

On the outbreak of the Paraguayan War he assumed command of the steamer Cosmos belonging to Lezica, Lanus and Fynn. He afterwards entered the service of the Mensagerias Fluviales belonging to Saturnino Ribes, and for many years was captain of the Silex, and the Saturno. When the Mensagerias were sold to the Platense Company he remained captain of the Saturno and afterwards of the Venus, which latter vessel he left last year on her being laid up. Since then he had resided in this city.

Captain Goldie will be missed by both English and foreigners, and especially by the natives.

His hearty manner, obliging disposition and pleasant kindly face, familiar to all Englishmen in the River Plate, helped to make a journey between this and Buenos Aires or farther up the river agreeable.

He was 53 years of age and leaves a widow and three young sons, to whom we tender our sincerest sympathy.—*Uruguay News.*

S.S. LA PLATA v. S.S. CLYDE.

Mr. Editor,

There can be no doubt that the statements on both sides of this dispute are correct. Night signalling at sea has been and always will be productive of complaints and recrimination. The varied and changing condition of the atmosphere is sufficient of itself to cause it. It is, however, exceedingly silly and childish to make such charges of "mal prepense." As if it were possible—taking human nature at its basest computation—that distress signals from a large steamer, promising some pickings in the way of salvage, should be wilfully ignored by any seaman glad of the chance to pick up a little prize money.

I note that the French captain in his report specially exonerates the engineers. Only a strict and searching enquiry will be able to do that. The breaking of the piston in the first instance might be the result of an inherent flaw in the metal, and so might be the cause of the bursting of the main steam pipe. It may be granted that the first was caused by bad metal, or bad work while in port, and the second may have been caused by some oversight on the part of the engineers during the excitement consequent on the first accident.

The whole thing calls for a rigid enquiry.

Yours,
R. B. M.

A WORD ABOUT SERVANTS.

Mr. Editor,

Would Dr. O'Connor kindly go round some of the private houses, and see where servants are sometimes put to sleep. I know one whose room was next the W.C., inhaling sewer gas all night, after a hard day's work.

Sympathy.

RAILWAY ITEMS.

The Board of Public Works, endorsing the Inspectors General's report, have written to Government urging the provisional opening of the last section of the San Cristobal-Tucuman Railway and of the branches to Cruz Alta and La Banda. The Board say provisional, because there are certain "obras de arte" yet unfinished. These unfinished works represent $193,000 gold, a circumstance which the Government must take into account when paying the guarantee.

The *Diario* has begun a campaign against a certain railway business, about which some sensation was caused some months ago by Engineer Seurot's report.

We take the following from the *Railway News*:—

"The receipts of seven of the principal Argentine Railways published this week amount, on 3,895 miles of open line, to £56,653, and for the corresponding week of 1891, on a mileage of 3,157, to £40,523, the increase in mileage this year being 23.28 per cent, and the gross earnings being 40 per cent more than in 1891.

"The average receipts per mile of the seven railways for the week were £14. 10s. 11d., compared with £12. 16s. 8d. last year, an improvement equal to 13.34 per cent in 1892.

"The value of the £ sterling was approximately $18.40 in 1891 and $15.70 in 1892, representing an appreciation in currency equal to 18 per cent this year. The higher value of currency more than covers the increased earnings per mile, and it would appear from this that the volume of traffic is, mile for mile, 5 per cent less than in the corresponding week of 1891. This however is not the case, as some railways have lowered the premium on rates and fares, and this would probably represent something more than the apparent diminution in the movement of traffic. The recovery of the inland trade does not seem to have set in steadily, up to the present."

EDITOR'S TABLE.

Mr. Todo-el-Mundo spoke of nothing yesterday but the sudden turn in the affairs of the B. o. t. N. The worthy man did not seem to like it. Neither did the Gold Eagle.

The National Deputies met yesterday. The Government sent in the International Vienna Postal Treaty signed by Dr. Calvo. Deputy Gonzalez obtained leave of absence for 15 sittings. Several Deputies moved that the Government be authorized to spend 60,000$ gold in getting from Italy the statue of Velez Sarsfield, ordered by the Cordobese Government, which has not the money to pay for same to-day: the motion was considered and the business was sent to committee. The Foreign Affairs' committee despatched favourably the supplementary funds asked for the Boundary Committee on the Chilian frontier: the House voted the funds.

The Southern Railway intends to afford overworked citizens a smell of the briny at Mar del Plata on the glorious Ninth, and will run a special train on Thursday night, returning on Sunday. In this way three nice holidays can be taken to celebrate Independence.

The doctors say that the Influenza Fiend has made a fresh start in the city and is more violent and virulent than before. Bad news this.

Some esteemed subscribers who have been drinking Messrs. Baugh and Co's China and Ceylon teas ask us to mention them as delicious, and this we gladly do.

The South American Bank Note Company has come to the rescue of the shirt-cuffs of all the business men in town, with a present of a neat memorandum book, which is given to all comers free, at 189 Calle San Martin. The Company that abolishes pencilling on shirt cuffs deserves well of the country.

Next to this, the men who help to keep the utensils in our kitchens clean deserve public gratitude. This Messrs. Ravenscroft, Mills and Co. have done by introducing Brooke's Soap, Monkey brand, which we strongly recommand families to try.

On the 4th of July the U. S. Minister will receive on board the U. S. s. Bennington, in Dock No. 3, with Commander Bradford, who and his officers will tender a hearty greeting to their visitors. During the afternoon the crew of the Bennington will carry out a varied programme of games on the dock athwart the ship. We understand that a great many English and Argentine ladies and gentlemen are going to join the American colony in paying their respects to Uncle Sam upon this his great birthday. U. S. Consul Baker will also receive in the early afternoon at his residence in the Calle Uruguay.

We learn with an audible shiver and cold-water-down-our-back sensation that the new water tank in Calle Cordoba threatens to give way. It turns our hair grey instantaneously to even think of what would happen if that tank gave way while full of water. Oh! the B.L! the B.L!

The latest news from Rio Grande is that the revolution is triumphant all over the province, except at Bagé, where General Tavares still holds out, but will probably end by surrendering.

A lot of gold coin was found in an old house in Calle Peru, between Alsina and Victoria, on Thursday, where excavations are going on. While shovelling up the earth a workman saw a gold coin in it and informed the overseer. All the men began at once to search eagerly, and 21 half ounces coined early this century were found. The house belongs to the Azcuenaga family.

From lack of space we have to leave over till to-morrow the publishing of the programme of the Choral Union concert to be given on Tuesday.

Another shower of ashes is reported from Chubut territory. This is no great phenomenon there, so much nearer the Andes than this city, where showers of fine ashes have occurred once or twice, as we took occasion to explain some months ago, but have no time to explain again, as time is money, and we require as much of it as we can lay our hands on. Mr. Eustace Jones, who has just arrived from Junin de los Andes, says that the Volcano Villarica is within about 25 leagues of his estancia, and that it is always smoking and sometimes, in the middle of the night, it bursts out into great flames which can be seen at a distance of 30 leagues. Villarica is on a par with Vesuvius, and he is of opinion that the ashes that fell on Chubut came from this volcano. Many parties have tried to ascend to the summit of the volcano, but the permanent snow always defeated them. Only last year there was a stiff eruption of the Volcan Llaima, which is close to Junin de los Andes; the estancieros heard the noise at 10 a.m. and thought the Chilians were bombarding Valdivia. No sheep or cattle killed. Ashes fell around.

The most wonderful news of the day comes from Mount Sinai, where, it is stated, the tablets of Moses have been found. We hope this is not another hoax to get to the blind side of the British or other European Museum, as was done some few years ago by clever speculators.

The Bateman Legacy Commissioners are bricks, and seem determined to emulate the Chief of Police and Chief Commissioner of Immigration, who have managed to carry on their respective departments for much less cash than was allotted to them for the purpose. The B.L.C.'s have done well in this direction also, and, in the first half of the year have spent $280,000 less than their "presupuesto." This shows good, honest management, in strong contrast to other days.

The crowds at the San Martin Theatre every night now are something phenomenal. On Thursday night there was not standing room for a Locust, and the performance of Fra Diavolo was simply magnificent. The performance was pronounced to be A 1. Anovazzi, the tenor, was loudly applauded, and as for the baritone, Signor Cesare, who has just come out from Italy, he was the object of an enthusiastic ovation. His rendering of the "Gracia al Cielo" scene had to be repeated no less than four times. We trust Signor Tomba will give Fra Diavolo again.

We recommend those of our subscribers who are weak about the lungs to try a veterinary surgeon the next time they feel bad, instead of their family M.D. The medical savant, Professor Landouzy, of Paris, declares that in the matter of prevention of tuberculosis veterinary science is more advanced than the science of medicine as applied to men. He advocates State intervention to empower physicians with the right to quarantine cases of this disease. This matter, he says, is only less serious than a cholera epidemic. If consumptive people are to be quarantined, Lazzarettoes ten times the size of the "great whale" of the Chicago Exhibition will be required in many countries.

The City Fathers met on Thursday. A little land job was the first thing on the correct card, and it was sent to the Committee of Investigation. Then, what is so euphoniously and delicately called a "refuerzo de incisos," (in plain English spending of more public cash in some shape or other) was on the tapis. After the "refuerzo" the Inspector of Theatres came on the scene, and a stiff note on the subject was sent to the Lord Mayor. Alderman Montes de Oca said he "smelt a rat" in this business. Then the ediles tackled the free "palco" in the theatres question and voted to a man that they (the C.Fs.) had a right to go to the theatres free, and meant to do so, in spite of the Lord Mayor. Bravo, old boys! Take care of Number One. Gods, could a city Senate long debate which of the two to choose? To pay or not to pay, that is the question for others besides City Fathers: and it is invariably answered in the negative.

The Brazilian flag is not lucky on the ocean wave. The Pelotas, a merchant steamer, has now gone aground a few squares from where the Solimoes went down. There must be a powerful current about there.

The Radicals seem to be furbishing up their arms and eloquence for a burst when the state of siege is raised. Drs. Alem and Morel and General Campos are preparing to start. We note that meetings of Radicals, Civicos, National Civicos, etc. are going on all round the city.

The youthful King of Spain, Alfonso XIII, who was born on May 17, 1886, recently completed his sixth year. His Majesty is said to be uncommonly intelligent for his age, but continues to be very obstinate, and if he wants a thing and cannot get it he gets into a rage which the Queen Regent alone can appease. He has a great desire to be a man, and above all is anxious to have a moustache. The Pope, who is the King's godfather, sent his usual greeting. Probably a box of chocolates would have gratified his youthful Majesty better.

In order to keep our readers up to their collars (in a horsey, not 'ropa blanca' sense) as to writing to the old and young folk at home, especially to wealthy bachelor uncles and maiden aunts, we give them due notice that letters to Europe, via Montevideo, can be posted to day up to 3 p. m. The R. M. S. Clyde will start on 6th; 'ultimo momento' for post 11.30 same day. The Matthew Bruzzo goes on the 7th., and the mails will close the moment the orb of day touches the meridian, which is generally at noon.

A gentleman lately dismissed a clever but dishonest gardener. For the sake of his wife and his family he gave him a character, and this is how he worded it: "I hereby certify that A. B. has been my gardener for over two years, and that during that time he has got more out of my garden than any man I ever employed.

Mr. Nolte, the well-known 'librero' in Calle Cangallo, intends to send specimens of all the maps of this country to the Chicago Exhibition.

Racing on the river is beginning again. As yet, however, the captains do not sit on the safety valve: but it would be well to check them before it comes to that.

We feel great pleasure in saluting the *Courrier de la Plata* on its 28th. anniversary, wishing it an increase of its present prosperity.

The *Prensa* says that a dozen of new Generals, to cost half a million a year, will soon be added to the army, which will then have 63 generals, to command 10,000 men, or a General for every 161 rank and file. This beats Venezuela.

The police made a razzia amongst the vagabond boys in the streets on Thursday night, and "ran in" one hundred, of whom 45 were found to be guiltless of any infraction of law, but the other 55 were detained in custody. One young thief had a costly, lady's watch and chain in his pocket.

The latest C. E. intelligence is that the famous Argentine Pavilion that figured in Paris is to be re-erected in Plaza San Martin for the preliminary show of the exhibits that are to go to Chicago.

The man who is suddenly thrown upon the world finds it hard work to support himself. This is especially so of the aeronaut who falls out of his balloon.

Hayward's Paste Dip
The best test of a Sheep Dip

PRACTICAL RESULTS OF USING A RELIABLE DIP WHICH CURES THE SCAB AND IMPROVES THE WOOL.

The following testimonial is received from Messrs Ronald & Rogers, the celebrated Brokers for River Plate wools at Liverpool who sold a number of lots of wool from some of the largest Estancieros in the River Plate.

COPY TESTIMONIAL

Telegraphic Address—Ronald, Liverpool, Exchange Chambers, Bixteth Street, Liverpool, 20th Feb. 1892.

Dear Sirs—

Amongst the River Plate Wools which we have sold here this season, our attention has been called to several clips which had been treated with Hayward's "Paste" Sheep Dip, and we have pleasure in testifying to the *freedom from scab, and handsome lustrous appearance of these wools, which we consider materially assisted in their obtaining such very good prices.*

ON 'CHANGE.

Friday, July 1st.

The Government decrees annulling the subscription to the capital of the Banco de la Nacion produced the reverse of a favorable impression on the market. The majority have not yet grasped the full meaning of the decrees, and the unfavorable aspect of affairs this morning is merely the prelude of a stiff reaction which will drive up gold and revive distrust. The Banco de la Nacion is confirmed as a State Bank for another year, on the plea that there is no breathing-time to draw up a reform of the Bank's charter and submit the matter to Congress this year. It is quite plain that the Government is afraid to face Congress, and prefers postponing the solution of this banking question for the benefit of the new Government that will take the reins of power next October. "En fin," affairs remain in "statu quo:" the Bank continues under State control and the public are bowed out of the banking parlor. The market does not relish this unceremonious proceeding, and gold rises steadily in consequence.

Fifteen thousand ounces changed hands at the first ring: the price opened at $51.20, rose to 51.70, and closed at 51 40, say 215¼% premium. Sovereigns opened at $16 and closed at 15.95, say 216¼% premium. The current of the speculation is rapidly rushing in a bullish direction, for the Caja de Conversion must now begin issuing millions of fresh paper money to cancel or amortize Patriotic Bonds; in this fashion twelve millions of paper will be issued up to the end of December, and twenty-four millions more in 1893. Under such circumstances, it would be absurd to expect a continuance of the recent improvement in the situation, for in the last twenty-four hours the Government has changed the face of affairs with a few strokes of the pen. On 'Change, bankers and capitalists, dealers and brokers, insiders and outsiders in the speculation, were all engaged in a brown study of the Government decrees, and the black board faithfully reflected the general conviction in a firm and rising market, both in gold and Patriotic Bonds. The gold bears are now in a minority and the number of bulls swelling rapidly; the latter, produce consignees, and the holders of Patriotic Bonds were highly pleased with the decrees, whilst the market at large remained sullen and gloomy as they watched the ebb of the tide that flowed with such force last month.

Patriotic Bonds were necessarily very firm, and the wonder is that the Government decrees did not give them a much greater spurt. Thus, the subscribers to the Banco de la Nacion receive 75 for their bonds from the Government, whilst they can buy them in the market four points lower. It must be confessed that the National Government has dealt in a most generous manner with the subscribers to the Bank's capital; the majority of these fortunate subscribers clear from 10 to 15% net on the business, not a bad business for a few weeks' transaction. To render the situation still more favorable, eight millions of the stock must be amortized this and next month, and 28 millions more up to the end of 1893; nothing could be more satisfactory from the stockholders' point of view, but the market groans at the idea that all this munificence is at the expense of the currency, for a paper dollar must be issued for every dollar of the stock sent to the Caja de Conversion or the State Bank for amortization. The Internal Bonds, whose fortunes are so intimately linked to the Patriotic stock, were very firm all morning at 63.80 to 64.

Catalinas shares were weak, closing at 9.80. La Plata Cedulas were more or less steady at 32. A few Spanish Bank Shares were sold at 108. The speculation going on round the share ring is dwindling fast; the whole business of the morning did not much exceed one hundred thousand dollars' worth of Cedulas and Catalinas; yet there is quite a crowd dabbling in this miserable, small business; commissions must be very meagre in such a dead-and-alive market. But a month ago, a slight revival of business took place; there were rings when ten thousand Catalinas and a million Cedulas changed hands, and the gutter snipes and lame ducks beamed at the idea of a return of the old palmy days of small margins; but the whole affair exploded, a mere flash in the pan; it is with some difficulty that to-day a few thousand Catalinas and Cedulas are trumped up to give some faint signs of a vitality that is rapidly ebbing away.

The exchange market continues dull at 4⅞ to 4⅞d. on London and 4.97 to 4.99 francs for Paris and Antwerp. Bills are not superabundant and the banks are doing nearly all the business. Brokers state that the cargoes of produce going forward are of great bulk, but little value; this refers to the heavy shipments of maize, and the supply of exchange bills does not amount to much. Discounts are daily more easy; 5½% is now frequently quoted; meantime, bankers are paying 6% on deposits at fixed dates. The movement at the banks to-day and yesterday was comparatively insignificant, in spite of the half-yearly settlement; we remarked much greater activity on settlement days at the banks in previous months. Where banking business is growing fast is at the Banco de la Nacion, both in discounts and deposits; with regard to the latter, it is amusing to see that the Government has decreed that 75% of the deposits must be deposited for safe-keeping; no doubt, in the Caja de Conversion; the balance, 25%, must be kept in the bank as reserve, as stipulated by its charter.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Ounces—
For cash.... 15,005 at 51.20 30-40-50 60-70-60-50-20 50-60-

At the cashier's office of the Junta de Credito Nacional there was a crowded attendance of coupon holders, collecting their coupones on the bonds of the Emprestitos of 1892 and 1891. It was rather refreshing after the long interlude of the crisis to see the returning signs of an improvement by the payment of coupons, as the snap in the market caused by the Provincial Mortgage Bank was felt very much on each quarter day. The Credito Publico office gives printed forms which have to be filled up, giving amount, Nos. etc. of coupons, which is always a bother to the investing public. In fact, the whole coupon system is a most tedious way of collecting interest, and calls for reform. In the bright palmy days of this market we do remember a large holder of cedulas, who came to town every quarter, took a room in the Hotel la Paix, and with the aid of a clerk and 2 boys cut off his coupons of the Hard Dollar bonds and Provincial Cedulas. To-day the coupon cutting industry is very limited, and the little crowd we noticed at the Public Credit office shows that at last things are coming round in the market.

The Provincial Mortgage bank cashier is up to his ears in business, paying out bonos for coupons. They say on 'Change that the quarterly issue of Bonos reaches six millions, which at their present market value is not a very large amount.

The Old Gas Company has declared another dividend to its shareholders. The notice is in another column, but we remark that Mr. Murray does not specify in his notice the amount of the dividend, which is the salt of the whole business. But a year ago the gas companies were thinking of closing up temporarily, as the consumers were unable to pay up. Now, however, the darkness of the crisis is over, and the companies are able to pay dividends to their shareholders.

In our last we published the report of the Liebig Meat Factory for the past year, and we call attention to the fact that this wondrously prosperous company has now facilities for killing 2,000 animals per day. This surpasses all other establishments of the kind or saladeros in this country. We still remember when the founder of this fabric, the late Mr. Gilbert, started killing 3 animals a day. Then he increased his pots and pans and killed up to 90 per day, and now they kill 2,000 per day. This surpasses even the great Guinness's Brewery in Dublin.

We salute Mr. Mold, who is now partner in the well-known firm of Krabbe Higgins and Company. Mr. Mold has served a long apprenticeship and has a very wide circle of friends in this market, where he is universally esteemed.

Circulars were sent round to-day announcing the new money-brokerage firm of Messrs Wilson and Mullaly: both these gentlemen are well-known in the market, on whose support they can rely at the ring, in the merchant's office, or in the banking parlor. Our two enterprising countrymen start with the very best prospects, and we wish them success.

The Argentine Consul in Sydney writes to the National Government that large numbers of respectable men in that colony desire to emigrate from Australia to the Argentine Republic. The labor question is the cause of the hegira.

The gold market opened weak at the second ring and closed heavy, owing to a heavy supply of so-called produce gold. Seven thousand ounces were sold for to-morrow: the price opened at $51.30 and closed at 50.80, say 212 ½ premium. Sovereigns closed at $15.75, say 212½ premium. Patriotic Bonds were in slurring demand and rose rapidly; about four hundred thousand were sold at 71.80 and 72 for end of month, and 71 to 72¼ for to-morrow, closing at 71½. Internal Bonds rose also, closing hard at 65¼. La Plata Cedulas were erratic and weak. Catalinas were steady at 10.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

The Chairman of the City Improvement Works Committee has informed the Government that, according to Article 9 of the Rescission Contract, the lessees are bound to hand over to the Government completely finished those works which the original contractors were to build, for which purpose two terms were allowed up to July 1, 1891, and the other up to July 1, 1892. These terms have expired and the lessees have not complied with their contract. They are, therefore, liable to a fine of £10,000 per month's delay. The Committee think that the lessees have no excuse whatever.

Government has decided to suspend collecting duties in gold on ships engaged in the coasting trade, until Congress decide the matter, about which the Executive has sent a special message.

Minister Hansen has decided that from this date the copies of invoices for deposit must be presented to the Custom House within 15 days of the ship's arrival. In case this be not done, the goods will be immediately deposited under the charge of a "guarda" who will be responsible for any loss.

The Minister of Finance has fixed the rate of gold at 308 for payment of Customs dues.

The following letter from Mr. F. Torrome will be read with interest:—

London, June 4th, 1892.

Dear Sir,

"In your Packet Edition of 10th May I observe you have published the information on butter which we had communicated to several of our friends. I observe, however, several errors, one most important and the others slight.

The amount of salt in the New Zealand butter is *three* per cent, not *thirty!!!*

Sir Wilfrid Lawson would strongly object to the introduction to this country of such a superlative thirst reviver as a 50 % salted butter!!

The *brokerage*, not the commission, is 30 %.

Each box should contain at least 56 lbs., not 50.

The idea alone of your saliferous butter has already made one thirsty, so I must hurry out for a gargle."

I remain,
Yours faithfully.
Francisco J. Torrome.

Rio Segundo Brewery.
Stout and Pale Ale

These beers were reported on by the famous Analyst Dr. Arthur Hill Hassall of London, the greatest authority on the subject in the world, and pronounced to be well brewed beers and free from metallic or other impurities. They are brewed from genuine Malt and Hops, without any admixture of chemicals, and pasteurized to preserve them in good condition for an indefinite period.

TEA
LA MAGNOLIA
INJURIOUS TEA DRINKING.
In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 12 minutes "brew," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.
GUARANTEED PURE.
Beware of gross, imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.
